Dream. Then Do.

Gel Suspension Technology

For the first time, a wide variety of vitamins, minerals, and other nutrients are available in a flavorful gel form that your body can quickly break down and use. And our gel packs ensure that you get the right amount of nutrients—wherever and whenever you need them.

So forget pills that are tough to swallow and hard to digest. Lose bulky juice bottles, awful flavor, and imprecise amounts of nutrients. And discover a high-quality, high-tech gel that makes nutrition effective, exact, quick, convenient, and flavorful.

The route from average to the stuff of dreams is clear and concise. So follow it. Be unstoppable about it. Take every step with passion. Do it because it leads to everything being possible.

Agel can help you get there. Whether your dream is independence from 9 to 5, a healthy income, or a healthier lifestyle, it all starts with our revolutionary gelceuticals that have changed nutrition—and can change your life.

EXO

EXO is a unique blend of exotic fruits and plant extracts—seabuckthorn, noni, mangosteen, and açai, to name a few. Each is good for you, but they're even better together, since a wide variety of natural nutritive sources is the way to fully meet your nutritional needs.*

MIN

MIN gives you the amounts of vitamins and minerals you need everyday. Better yet, it provides this essential nutrition in a great-tasting gel that's easy to swallow, easy to take with you, and easy for your body to absorb. MIN just might make the vitamin pill extinct.*

UMI

UMI contains Fucoidan, perhaps the most exciting nutritional discovery in the last decade. There are many potential health benefits from Fucoidan, which is found in seaweed, a plant long associated with good health.*

PRO

Agel PRO packs a protein punch. It's perfect for a between-meal pick-me-up, without the hassle of mixing powders, swallowing a pill, or consuming a pasty, tasteless bar. And the protein in PRO is absorbed quickly—which means faster impact on your body.*

OHM

OHM brings your mind into alertness and clarity, without you losing your calm. So if you feel dull, bogged down, or just worn out after a long day, don't rely on empty calories and artificial stimulants. Turn to OHM with ginseng and other natural stimulants.*

FIT

FIT compliments your weight control program, along with eating right and exercising. That's because it contains a patented natural ingredient that prevents your body from storing unused carbohydrates and, when used before eating, inhibits fat production. It can also reduce your desire to eat when you're not hungry. *

FLX

FLX helps the millions of us around the world who suffer minor joint pain associated with an active lifestyle. It has four natural ingredients that provide the lubrication, cushioning, and maintenance required for joint flexibility.*

Ready to achieve a healthier, more vibrant lifestyle? You can, if you eat right, keep fit, participate in supportive communities, and discover the positive impact of Agel products. **For more information about our gels, please contact your distributor or visit us online at www.agel.com.**
